

APPLICATION FOR RAIL ACCESS ROAD COMPANY PERMIT

RTIO will issue a permit to companies, organisations or corporations to operate vehicles on the RTIO Rail Access Roads. This allows any licensed company employee and vehicle to travel on the access roads, when open, as long as the driver carries a copy of the company permit and has a valid RTIO HSE induction card (issued prior to 20th September 2010), a rail driver awareness card (issued prior to 20th September 2010) or a valid Individual access road permit. These conditions are outlined on the permit.

Permits will be issued for a 12 month period. The permit holder is responsible for initiating renewal action.

The Permit Holder will be required to accept responsibility to ensure that all drivers and vehicles operating on the permit meet RTIO's requirements.

If persons operating under the permit are found to be in breach the safety requirements then the permit may be withdrawn.

Name of Company / Organisation:	
Postal address:	
Telephone number:	
Permit holder – Name: (this person will be point of contact between the company and RTIO for rail access road issues)	
Role / appointment of Permit holder within the company:
